

## Beat the wash day blues

ONE3ONE has over 29 prison based industrial sized laundries including six tunnel washer sites with dedicated finishing, folding and sorting facilities. We already have a well-established reputation in the public sector, providing a competitive service and high quality finishing. All sites are capable of thermal disinfection processing to NHS standards.

### We already wash for:

- National Offender Management Service
- Hospitals
- Police forces
- Hotels and catering
- Universities
- Fire services
- And even rugby clubs

### Talk to us about what we can do for your business

We have recently introduced ISO 9001:2008 into five of our sites. We currently launder around 26 million pieces of washing per year and are keen to increase the opportunities we provide as part of our laundry services. Come and talk to us about broader related services we might be able to develop with you, including linking in with linen hire, workwear, roller towel processing, mat processing, textile repair/recycling services, identification tagging services and reproofing/specialist services.

### What our team say

“With the recent refurbishment of HMP Wymott laundry, the prison laundry is now comparable with any private commercial laundry.” **D.I. Jaszczuk, Instructional Officer, HMP Wymott Laundry.**
