

A stitch in time

We currently have more than 40 workshops across England & Wales producing bedding, soft furnishings, slippers, clothing such as sportswear and work wear... the list is long and so is our 100 year history in the textiles industry.

We can cut, stitch, embroider, inspect, pack, repair, alter or manufacture anything you need. We can offer a Cut, Make and Trim (CMT) service with a good range of industrial machinery for woven and knitted fabrics.

Already in production are:

- Boxer shorts
- Jeans
- T-shirts
- Sweatshirts and fleece trousers
- Sheets and towels
- Aprons

In the last year, we produced over 2.3 million pieces.

Talk to us about what we can do for your business

With the UK increasingly dependent on cheaper imports from overseas, ONE3ONE is keen to bring textile manufacturing back to the UK. **Talk to us about how we can use our extensive experience in the textile industry to help your business develop.** We have flexible opportunities and will adapt to produce your range of products. We will help you meet the challenges of a changing commercial landscape.

What our team say

“Having a vast professional background in the textile industry we pride ourselves in producing quality garments working with state of the art machinery.”
Instructional Officers, Debbie Goodman and Carole Devlin, HMP Wymott.
